

Islam

Australia is a country built on Christian values. Our laws, way of life and customs enforced in the Australian Constitution were based on a secular society. Secularism is asserting the right to be free from religious rule and teachings or, in a state declared to be neutral on matters of belief, from the imposition by government or religion or religious practices upon the people.

Australia has embraced migrants from all different races, making us one of the most multiracial nations on earth. Most have assimilated and are proud to call themselves Australian, accepting our culture, beliefs, laws and way of life. But unfortunately, there are some who have come to our country with the goal of changing our way of life, taking away our freedom and terrorising those who want to live in a peaceful society. Those migrants are the extremist Muslims who are devout to the teachings of Islam and its leaders. All may not follow the teachings of the Qur'an, but if Jihad is called (applying any methods, including threats, deceit and ISIS-style warfare, to establish Islam as the dominant power, completely endorsed by Allah and Mohammed) where do their loyalties lie?

What is Islam and how does it impact on Australia?

Islam sees itself as a theocracy, not a democracy. Islam does not believe in democracy, freedom of speech, freedom of the press or freedom of assembly. It does not separate religion and politics. Many believe that it is solely a religion, but the reality is that it is much more, for it has a political agenda that goes far outside the realm of religion. Islam regulates the Muslim's social and domestic life, their legal system and politics - their total life. Its religious aspect is fraud; it is rather a totalitarian political system, including legal, economic, social and military components, masquerading as a religion. Islam is a constitutionally protected religion, as stated in Section 116 of the Australian Constitution. This means that Mosques, Islamic Schools and other Islamic institutions are void from paying tax. Being defined as 'a religion' it is considered 'discriminatory' for Islam to be questioned and this is shutting down any debate that we, as Australians, would like to have.

Islam is proving to be seditious against every nation and government on earth. Islam demands that all Muslims work to overthrow all nations, governments and non-sharia laws. We recently saw this written within a linked website, that was provided in the Australian Defence Force publication "Guide to Religion and Belief in the ADF." Since being exposed by journalist Michael Smith, it has been removed, but it stated:

"It is not permissible for a Muslim to nominate himself in the hope that he can become part of a system which rules according to something other than that which Allaah has revealed and operates according to something other than the sharee'ah of Islam. It is not permissible for a Muslim to vote for him or for anyone else who will work in that government, unless

the one who nominates himself or those who vote for him hope that by getting involved in that they will be able to change the system to one that operates according to the sharee'ah of Islam, and they are using this as a means to overcome the system of government, provided that the one who nominates himself will not accept any position after being elected except one that does not go against Islamic sharee'ah."

- The scholars of the Standing Committee for Issuing Fatwas (Shaykh 'Abd al-'Azeez ibn Baaz, Shaykh 'Abd al-Razzaq 'Afeefi, Shaykh 'Abd-Allaah ibn Ghadyaan, Shaykh 'Abd-Allaah ibn Qa'ood)

The same guide for Muslims in the ADF also stated:

"Democracy is a system that is contrary to Islam (because) legislative authority is given to someone other than Allah, may He be exalted. In these systems legislation has been promulgated allowing abortion, same-sex marriage and usurious interest (riba); the rulings of sharee'ah have been abolished; and fornication/adultery and the drinking of alcohol are permitted. In fact this system is at war with Islam and its followers. - Shaykh Muhammad Saalih al-Munajjid

Islam is the fastest growing ideology in the world. Muslims represent a world population of 1.6 Billion now and expected to be 2.3 Billion by 2050. Pew Research believe Australia's Muslim population is currently at 2.4% and growing.

It has been noted throughout the world that as long as the Muslim population remains around or under 2% in any given country, they will be for the most part, regarded as 'a peace-loving minority and not a threat to other citizens.'

Australia is now seeing big changes in the suburbs which are predominately Muslim. Some of these suburbs include Lakemba, Auburn, Bankstown, Punchbowl and Villawood in Western Sydney, Tolerance toward other Australians or non-Muslim migrants is no longer the case. Our law courts are disrespected and prisons have become breeding grounds for extremist Muslims to radicalise inmates.

Terrorism is not only seen around the world but now a part of our history with Muslim refugees involved in the Lindt Café siege, the murder of a police civilian employee Curtis Cheng and the stabbing of the two police officers in Victoria. We have more Australian Muslims fighting for ISIS than we have in our defence force and ASIO has over 450 known terror suspects under surveillance. Civil tension is on the rise across the country, led by Australians feeling the impact of Islam in their lives and distaste for its beliefs.

The Halal certification 'tax' has been forced upon us costing Australians approx. \$10 million a year. Halal certification is not a religious requirement but a money making racket by those profiteering from the greater population including Muslims themselves who are being told that they must buy these items. Halal Certification only started in Australia in 1974. What were Muslim's eating before that? Non-Halal food can be consumed providing that the word "bismillah" ('in the name of God') is said over the food as a prayer.

Christmas carols can no longer be sung at some schools, bibles will not be found in most hospitals, some public swimming baths have time set aside for Muslim women only, and drivers licences obtained by Muslim women allow them to wear the Burqa or Niquab. Prayer rooms are now provided in Universities, hospitals, schools, airports and shopping centres to accommodate Muslims; this includes Islamic prayer rooms in Christian schools. There are some Muslims who want to see Sharia Law introduced in Australia. This law is the totalitarian social code, which prescribes harsh feudal rules imposed on everything, firstly for Muslims, later for everyone. It has been reported that Sharia Law is already being practiced in Australia, within Family Law.

There are some Islamic terms that all Australians should be aware of. If Islam itself was a tolerant, non-discriminatory, non-deceptive and progressive culture, why do the following definitions exist?

Dhimmi is any non-Muslim (Christian or Jew) allowed to live and pay tax (jizya) under domination of Islam and treated as a second-class citizen in his or her own country.

Hijra is Muslim colonization of other lands (Australia) through migration.

Kaffir is any non-Muslim (us), the lowest rank of being, worthy of contempt, should be ruled over by Muslims.

Taqiyya is deliberate deception and lying to protect or advance Islam, by concealing its real agenda; One message to guide the Muslims, a separate one to fool the media and Kaffir.

Islam has no place in Australia if we are to live in a cohesive society. We have seen the destruction it is having around the world. If we do not make the necessary changes now to stop the advancement of Islam in Australia, there will be no hope in the future. Do you want your children and grandchildren to be living under Sharia Law and treated as a second-class citizen with no rights? We don't!
