Discussions will include:-

How will the Trump presidency effect climate change responses?

Who sets the climate agenda now?

What are the costs to Australia in pursuing the current agenda?

With Trump demolishing the Paris Agreement, what is Australia's exit strategy?

How can we return to reliable, low-cost energy supply and avoid the debilitating policies favouring renewables?

Such questions and more are discussed by Alan Moran and some of Australia's most recognised commentators on these important and topical issues.
